Privacy statement (<https://privacy.microsoft.com/privacystatement>)

Microsoft and the EU-U.S. Privacy Shield

Microsoft and its controlled U.S. subsidiaries (Microsoft) comply with the EU-U.S. Privacy Shield Framework as set forth by the U.S. Department of Commerce regarding the collection, use, and retention of personal information transferred from the European Union to the United States. Microsoft has certified to the Department of Commerce that it adheres to the Privacy Shield Principles. If there is any conflict between the terms in this privacy policy and the Privacy Shield Principles, the Privacy Shield Principles shall govern. To learn more about the Privacy Shield program, and to view our certification, please visit www.privacyshield.gov (<https://www.privacyshield.gov/>).

Microsoft's participation in the Privacy Shield applies to all personal data that is subject to the Microsoft Privacy Statement and is received from the European Union, European Economic Area, and Switzerland. Microsoft will comply with the Privacy Shield Principles in respect of such personal data. Microsoft also maintains an affirmative commitment to the U.S.-Swiss Safe Harbor Framework and its principles, which will not be affected by our participation in the Privacy Shield.

Microsoft's accountability for personal data that it receives under the Privacy Shield and subsequently transfers to a third party is described in the Privacy Shield Principles. In particular, Microsoft remains responsible and liable under the Privacy Shield Principles if third-party agents that it engages to process the personal data on its behalf do so in a manner inconsistent with the Principles, unless Microsoft proves that it is not responsible for the event giving rise to the damage.

As further explained in the "How to Contact Us (<https://privacy.microsoft.com/PrivacyStatement#mainotherimportantprivacyinformationmodule>)" section of the Microsoft Privacy Statement, we encourage you to contact us should you have a Privacy Shield-related (or general privacy-related) complaint. For any complaints that cannot be resolved with Microsoft directly, Microsoft has chosen to cooperate with EU data protection authorities (DPAs) and comply with the information and advice provided to it by an informal panel of DPAs in relation to such unresolved complaints (as further described in the Privacy Shield Principles). Please contact us to be directed to the relevant DPA contacts. As further explained in the Privacy Shield Principles, a binding arbitration option will also be made available to you in order to address residual complaints not resolved by any other means. Microsoft is subject to the investigatory and enforcement powers of the U.S. Federal Trade Commission (FTC).
